

*A Heartfelt Wish
Come True*

Declan's Disney Delight

Your generosity helped four-year-old Declan's wish come true!

Declan was diagnosed with a brain tumor when he was two years old and has spent much of his young life undergoing chemotherapy. Though his tumor has impacted his vision, he is as curious about the world around him as his favorite storybook character, Curious George. He loves splashing about in the water, listening to music, and animals – especially dogs and Shamu, the famous whale.

Declan wished to travel to *Walt Disney World®* Resort with his family! He couldn't wait to go on the rides and explore the enchanted land.

When Declan and his family arrived in Florida, they took some time to rest and then began a fun-filled, five-day adventure. With new sounds, smells, and experiences all around, Declan eagerly soaked in the excitement of the theme parks. He tried out many exciting rides, sampled new foods, and was delighted by the variety of entertainment. In addition to meeting some of his favorite Disney characters, Declan even visited SeaWorld to watch a show featuring whales like Shamu!

Declan cherishes all of the pictures and souvenirs from his magical vacation. They provide him with uplifting joy each time he relives his wish with his parents. Thank you for your generosity in granting Declan an experience that immersed him in the pure happiness of childhood.

Thank you
