

*A Heartfelt Wish
Come True*

Isaac's Disney Adventure

Your generosity helped five-year-old Isaac's wish come true!

For five-year-old Isaac, riding his scooter is a favorite pastime. He also enjoys playing games, drawing, and painting. Despite his diagnosis of rhabdomyosarcoma, a cancer of the connective tissue, Isaac remains strong like his favorite characters, Spiderman and Captain America.

When Isaac learned he would be granted a wish, his face lit up with joy. Isaac wished to travel to *Walt Disney World*[®] Resort with his family! He couldn't wait to go on the rides and explore the enchanted land.

When Isaac and his family arrived at Give Kids the World Village in Florida, the resort where they would be staying, he was thrilled to see that his villa looked as if it had popped out of a cartoon. Every building at the resort was more colorful and whimsical than the next. Isaac's favorite part was the all-you-can-eat ice cream available all day long.

After settling into their accommodations, Isaac and his family began a fun-filled, five-day adventure. Isaac led the way as they explored the Disney theme parks. He eagerly tried out many exciting rides, sampled new foods, and was delighted by entertainment around every corner. Isaac's favorite part of the week was meeting and collecting autographs from some of his favorite characters, including Spiderman. He felt on top of the world as each day unfolded and thoughts of his illness subsided.

Isaac made many incredible memories with his family on his wish. He cherishes all of the pictures and souvenirs from his magical vacation, and they give him hope and strength for better days to come. Thank you for your generosity in granting Isaac an experience he will never forget!

Thank you
